

What kind are these?

Posted by roddy - 12 Jul 2007 22:22

Hello all, been looking for information on mushrooms and stumbled upon your forums. I'll be a frequent visitor. Thank you.

Here is an image of some mushrooms in my backyard at camp;

Any clue what they are?? and here are some, they are quite a bit smaller;

If anybody can offer some good links or a title of a really good book for a beginner that would be great. Thank you!

roddy
